ChloroSan

Cleaning and Disinfection or Disinfection Only

1. Disposable gloves and apron are required at all times. If there is a risk of splashing, please use safety glasses. Dispose of PPE into correct waste stream and wash hands.
2. Use a paper towel to remove any gross contamination before applying ChloroSan.
3. Fill the dilution bottle with **cold water**. Add ChloroSan tablets. The lid must be off until the tablets have dissolved. Dilute as per instructions overleaf.
4. Chlorosan solution should be kept for no more than 24 hrs and any residual solution disposed of in suitable drains.

Consult product posters for full instructions.
